

A window for creativity, paying special attention to outdoor arts and the public space. Since 1981, taking place in Tàrrrega every year on the second weekend of September.

- Exhibition space for contemporary creations.
- Meeting point for professional exchange.
- Suport a la Creació, artistic residence program and market development
- Professional capacity building program in creation, management and programming in street arts and public space.

Our mission

We work all year round to invigorate the performing arts market, internationalise creators and generate strategic alliances to develop street arts circuits and productions.

Four thematic axes: territory, identity, commitment and reflection

From an artistic and creative standpoint, we want to offer views on the social and political challenges and concerns of the 21st century. A project committed to the diverse sensibilities of the citizenry.

Flagship professional space

With a sector-wide and transversal field of impact, we promote relationships and provide information and resources to cultural professionals all 365 days.

Market research and participation in international projects
